## October sky questions answer key

Given article text here The October Sky Movie Guide: A Resource for Students The guide provides worksheets and handouts for the 1999 film "October Sky", which is based on Homer Hickam's memoir Rocket Boys. The resource includes a variety of activities, such as comprehension questions, creative writing prompts, and a storyboard activity, to help students understand and engage with the movie. Teachers can use this guide as a substitute lesson plan or to supplement their existing curriculum. The guide features 14 pages of materials, including answer keys for multiple-choice questions and full-sentence answers. The activities are designed to cater to different learning levels, with three sets of comprehension questions available. Students can also write a newspaper article about Homer winning at the National Science Fair or design and label a rocket site inspired by the movie's setting. Furthermore, students will create a storyboard for the most important scenes in the movie and write a synopsis based on their storyboard. Overall, this resource is an excellent tool for teachers to support student learning and engagement with the film. With the help of friends, Homer Hickam embarks on an adventure to build rockets in a small town where most people, including his father, think it's a waste of time. \*\*Movie and Quiz Details:\*\* \* The movie is based on a true story about Homer Hickam and his passion for building rockets. \* It's set in the 1950s when Homer witnesses the launch of Sputnik 1, which inspires him to build his own rocket and work towards NASA. \* Homer teams up with three classmates at school and together they begin launching rockets, getting better each time. \* Their teacher, Miss Riley, notices their efforts and provides support. \*\*Purchase Details:\*\* \* The product is a quick movie guide purchase for teachers or substitute teachers. \* It includes 25 short answer questions to keep students engaged while watching the movie. \* The questions are in chronological order and an answer key is provided. \* A PDF version and a Word Version of the guide are included, allowing modification of questions to suit class needs. \*\*Related Product:\*\* \* "October Sky Complete Movie Guide with Extra Activities" - This product includes more critical thinking questions, self-reflection exercises, a written essay, and a group activity for further engagement. Homer's enthusiasm for rocket building motivates his friends to participate in a science fair, but his family's financial struggles take priority when his dad gets hurt on the job. Forced to leave school temporarily, Homer finds work at the mine and eventually returns to his passion, ultimately winning a national science fair award. This 1999 film, suitable for all ages (PG), features Jake Gyllenhaal, Chris Cooper, Laura Dern, and other notable actors in key roles, running at 1 hour and 55 minutes.
