As soon as I got it, I realized what was simple. Alesis Midiverb 4 Review - Record-Producer.com The Alesis Midiverb 4 Processor Reverb and Effects A low cost effects unit that works according to normal professional practice and therefore can be seen as an ideal introduction to reverb units and effects. The quality of the Alesis Midiverb 4 reverb is comparable to many reverberated units used in professional studios, being described as "dense" and "natural". 29 Xlarge Hot 15.0 sec This is one of my favorite effects. If you can't program your remote, you can't work on one of these. Midiverb II 16bit Digital Effects Processor This was the first effect processor I ever bought. I've been using it in a music store in Rome (Cristina d'Amore, Rome - via D. I also ©m thought it would be complicated to program the effects. Weight: 4.5 lbs. 73 Delay 115 MSEC Unbelievable effect for '50s Elvis, rock 'n' roll 'n' roll, and rockabilly music! 89 delay 480 MSEC Clean Delay Effect, default a repeat. I give this product two thumbs up. " Really fits my style, I'm playing Joe Satriani Blazing Modern Guitar Stuff (I got tired of these noisy little pedals) and I'm happy with it. "" This is a good unity and allows me to create some very individual sounds, the kind I have never heard, although I think that's more to my lack of respect for doing things conventionally. 2. Quick Start Guide. Midiverb II. Photos of Alesis Midiverb II (click on thumbnails to enlarge) Alesis Midiverb II features compact and portable; super easy to use; Offers MIDI control; Some superb sounds, with character characteristics in a year of rising; 198. The quality of digital audio processing is excellent with 18-bit conversion and 24-bit internal processing. Compared to some units that can produce one effect at a time (and remember that you will always need reverb), this unit will even allow you to have simultaneous multifacets. There are also a lot of other features that I will never have and probably never use again, but that's because I'm very happy with what it does to my sound." Record-Producer.com rating for Alesis Midiverb 4 Reverb and effects Processor: 8/10 Click here to return to Link Page. 16 Medium Bright 1.15 sec Beautiful bright ambience, perfect for pop music. 99 regenerated delay 4 sec very long effect. useful. (CD, in comparison, uses a meager 16-bit). User comments "When I was informed about this product about all its features and sounds I was impressed. Alesis Midiverb II Audio Demos I used a Roland D-50 with the internal effects disabled for the sounds fed on Midiverb II. The dry sound is played first, followed by the version processed: broadcast all Audio µ below sample My Comments oterid oterid o rartnoco arap sanae uo ,siam rezaf arap sol-!Amargorp edop ²Acov ,etneicfisu iof ofAn ossi es e .omitnÁ zzaj o arap amit'Á ,sepArop ed alas aob amU ges 0.1 kraD ednarG for the right feel.
