**BINGO LADDERS**

Pirate Spelling: Select spellings from a choice of three to fill gaps in a word, which animates a pirate and macaw. For regular players looking for a free game to enjoy, however, Dota 2 is still a good time. Forza Motorsport 6 Apex RPGs and MOBAs aren't for everyone. If they make a mistake, the game says "oops". Players engage in an epic battle to be the last one standing in a game of intense yet zany combat gun and melee combat. Sound Sea: Choose a target letter from the drop-down menu (e.g. d), and then a range of letters start appearing and disappearing in a fish tank, and the learner's job is to click on all the target letters (e.g. all the d's) and not any of the other letters. Deep Sea Phonics: Asks learners to select spellings from a limited number of choices to assemble words e.g. a diver says the word "paint" and the program presents the spellings d/b/p, then n/o/i/e/e, then n/l/w, then d/r/f/l. Blending Bingo: You have to first print off bingo cards before playing this game, and you need at least two players to make it fun. The screen shows a word generator where letters go round and stop to make words for you to cross off your card. Armored Penguin has one such crossword generator. Really great except I wish they wouldn't treat very decodable words like "is", "and" and "has" as whole chunks, and sound them out too. Reading Machine: A picture appears with three words, and you have to click on the word that matches the picture to get applause. In level 2, the second cards have a spelling missing and you have to snap if the target spelling completes the word. Additionally, other versions of the game have been released for Xbox 360, Xbox One, Playstation 3, Playstation 4, Android and iOS phones and more. Please avoid the "Really Hard" level, though, because it presents two misspelled words and one correctly-spelt one. Phonics Finder: This is a wonderfulword activity where you choose a target spelling and then click on the beginning and end of all the words in the grid with that spelling to eliminate them from a list. Holidays are coming up, when kids like to muck around on computers, and parents try to get them to use computers for LEARNING, cleverly disguised as fun. While knowledge of the greater Warcraft universe can make the cards themselves more enjoyable, no knowledge of previous games is necessary to enjoy Hearthstone. Tell a T Rex: See details above, use levels 3 and 4. Here are a few good-quality, free literacy games on the internet, sorted from very simple to more complex, which you might like to try persuading your kid or kids are fun. It wasn't until 2019, a full decade after League of Legends' release, that Riot Studios put out its second game, Teamfight Tactics. Dota 2 Similar to League of Legends, Dota 2 is a multiplayer online battle arena (MOBA) game with players competing for control of a map. Phase 3 contains two and three-letter vowel spellings, and unfortunately a few two-syllable words. Pinball Arcade While there are many pinball games out there to choose from, Pinball Arcade is special in that it attempts to recreate actual pinball machines so that you can play them from the comfort of your home. The base game on Steam comes with Frankenstein, Flight 2000, Ripley's, Starship Troopers and Star Trek Vengeance Premium tables, and you can pay for more if you enjoy the game enough. Photo Courtesy: Gallo Images/Getty Images Gaming is a billion dollar industry, but you don't have to spend a penny to play some of the best games online. You can comfortably play solo all the way up to level 60. You have to choose the right spelling to fill the word's gaps, and then the diver takes the item you've spelled out of a treasure chest. It has a basic rule set that's easy to learn but difficult to master. Photo Courtesy: Chesnot/Getty Images Impressively, League of Legends has been so successful that its maker, Riot Studios, has had little need to put out other titles. While the game is admittedly dated at this point — it was released in 2010 — it continues to have an active fan base. Words with more than one syllable Planetary Plurals: A singular noun (e.g. bone, church, army, donkey, half, sheep) is presented and the learner has to type the correct plural (e.g. bones, churches, armies, donkeys, halves, sheep) to get a cheering sound and a point. A bit klunky-looking, and there is the occasional "ar" word (I guess it's American), but kind of cute. Errors are ignored. Photo Courtesy: Joe Klamar/Getty Images Only interested in the story? Free 7-day trial, after which they invite you to subscribe. Drag n Spell: An incomplete word appears with a picture (e.g. str\_ \_ t with a picture of a street) and you have to drag the correct vowel spelling into it, from a choice of three or four options. Poop Deck pirates: See below for details, use the Phase 4 CVCC and CVC activities Vowel spellings Sandcastle Quiz: Choose a vowel sound and then listen to words with that sound and drop the correct spelling in to build a sandcastle for Sam the Clam. Letters and Sounds Phase 2: Initial Sounds Match: This is a memory game where you have to match a letter with a picture that starts with that letter. From MMOs to RPGs to racing games, check out 14 of the best free online games. Star Wars: The Old Republic Star Wars: The Old Republic received a lukewarm response when it launched in 2011, but several changes since then have significantly opened up the appeal of the game. Players must work together to dominate the map in a fantasy world, and the game takes skill and practice — not to mention good teammates — to master. Snap It!: In level 1 of this game, "long" vowel spelling is printed on one card and then words flash on another card. Cool. MORE FROM QUESTIONSANSWERED.NET 2020 update: this is a 2012 blog post and not all games listed are now available. Best of all, you no longer need to spend money to avoid endless grinding. When a word appears that contains the target spelling, you have to snap it. Poem Pack: Animated poems that each focus on a particular "long" vowel spelling. Another version of this game is called Picnic on Pluto, and a further version is called Dragon's Den. Unfortunately there are some two-syllable words mixed into the otherwise simple words presented, but they don't contain hard spellings. Starfall: There are many activities for practicing vowel spellings in Starfall (see above) Phonics Play Buried Treasure: See above for details. Note that a few of these games take a while to load, as they contain a lot of sounds and pictures, so be ready to distract/amuse your learner while that happens, so they don't just decide the program isn't working and take their goldfish internet attention span elsewhere. You can skip all the way to level 60 upon character creation. Unfortunately you can't click on the choices so you can hear them as well as see them, and a lot of the time it's possible to do this activity by visually matching the ends of the words, but anyway, it should help develop awareness of rhyme and sound patterns in words. If they make a mistake, a balloon deflates with an amusing sound that some kids will probably like. For Tolkien enthusiasts, the game is almost a Middle Earth theme park that you can visit from the comfort of your own home Photo Courtesy: @lotro/Twitter While some content does require a purchase, you can earn most of it for free with a bit of patience. In the hardest level you have to decide if they're words from a particular word group, e.g. things in the garden. Looking at misspelled words can just confuse learners about what's correct. Starfall: Collection of phonetically graded onscreen books, and when you click on a word it is sounded out, with each letter highlighted as it's said. Tell a T Rex: See details above, use Level 2 words Phonics Play Buried Treasure: See details above. Phase 4 of the game works on consonant blends. When you get it right, a fish giggles and a talk bubble says "well done", when you make a mistake it just says "oh no" and keeps going. Poop Deck pirates: See below for details, this is mainly a vowel spelling game but if at this earlier level, use the Phase 3 CVC activity Words with consonant blends Wordblender: This activity is meant to work on consonant blends but a lot of the words don't actually have consonant blends. Online play is possible through PC, Xbox One, PlayStation 4, iOS and Android devices. Photo Courtesy: Bloomberg/Getty Images Hearthstone: Heroes of Warcraft is a free online game modeled after the Magic: The Gathering card game. 3 Letter House: Choose a vowel sound (you can also choose a rime, but I'd suggest sticking to a single vowel). For beginners — sounds and letters Phonics Hero: This is the internet version of a great little iPad app that starts off teaching basic sound-letter correspondences in fun activities, and works its way systematically up to spelling and reading words. River Rhyming: Help a character cross a river by listening to and looking at a word, then clicking on a rhyming word from a selection of three. Tell a T Rex: This great little game presents written questions such as "Can a hen hug?" and you have to read them and tell the T-Rex the answers, by clicking on a tick or a cross. Phonics Play Buried Treasure: Click on the words "get coin" and a coin appears with something written on it. Parental assistance is probably needed here, to make sure it's successful and fun. There's never been a better time to visit a galaxy far, far away. Alien Swarm Alien Swarm is a free online game available from Valve that pits you and up to three friends against alien monsters. While the most obvious tweak was a shift to a limited free-to-play model less than a year after release, there have been a lot of more subtle changes that are good news for everyone. Learners have to read the word then click on the picture that matches it, to receive applause and balloons. CO/EvanLee/Pixabay Lord of the Rings Online Lord of the Rings Online may have been released in 2007, but while many other MMOs from that time have fallen by the wayside, this game continues on, in part because it appeals to hardcore fans. In fact, the main downside of the game is simply that you need a powerful computer to run it at maximum graphic settings. Fortnite Battle Royale Fortnite Battle Royale took off to become possibly the most popular game of 2018, and in doing so, it reinvigorated the battle royal game genre, with competitors like Call of Duty: Warzone soon springing up in its wake. If you get it wrong a sign says "try again". Forza Motorsport 6 Apex is a free online racing game that's essentially a slimmed down version of Forza Motorsport 6 for the Xbox One. The game then generates 3-sound words with this vowel, and the learner has to decide whether this is a real word or not, and then choose whether to change the first sound, last sound, or both, to make another word. Learners have to click on a cross if it's a nonword and a tick for a real word. Phonic Fighter: A letter appears on an alien spaceship, and then you have to click on a picture that starts with that letter (but there's no spoken words to tell you what each picture is, and some of them are a bit tricky e.g. inkwell) to shoot the spaceship before it shoots you. Or you can choose the picture first. While you only have six tracks to choose from, they're the same as the original game, and you have your choice of sixty cars to race on them with some truly phenomenal graphics. Learners listen to a word, choose an onset and a rime, and put them in the blender to make the word. While the mod can trace its origins to a mod made for Warcraft III called Defense of the Ancients (commonly abbreviated DotA), Dota 2 is a game in its own right. If it's a real word, put it in the treasure chest. If you make a mistake the diver rolls his/her eyes and says "I don't think that's right!". 3-sound words (CVCs) Jim's Whirlword Machine: A machine that seems a bit more like a poker machine than I'd really like (but that might just be me) spins letters around and when they stop you have to read the word created and decide whether it's a real word. As long as you have a computer, you have access to hundreds of games for free. There are also a number of free crossword-generating programs on the internet, into which you can feed a phonics-based wordlist (click here to find lots), add a clue for each word, then hey presto! print out your own crossword. Phase 5 of the game works on vowel spellings. Most of the spellings targeted are vowels, but there are also some 2-letter and 3-letter consonant spellings (sh, ch, th, ck, wh, gh, ph, tch) plus a couple of patterns used in 2-syllable words (ful, ly) Poop Deck Pirates: A pirate says "Aha me hearties, read the words, and keep the good ones" then throws up coins with words and nonwords on them. You can read them, do a sound search activity or a fill-the-gap one, or print them out if you like. Pick a Picture: This game presents a word and four pictures. Unfortunately the program is not 100% phonetically accurate (e.g. in the "ee" sound postcard, words like funny aren't counted) and Salty Sam repeats the instructions a bit too much, but otherwise this is quite nice. Pick a Picture: See above for details. Write A Postcard: Help Salty Sam write his postcards by finding all the words with a particular sound in them. This game's main focus is vowel spellings but it also has activities that practice CVC words, consonant blends and consonant spellings ch, sh, th and ng. The Word Wheels: Make words by starting and stopping wheels containing onsets and rimes, then scroll through the pictures to find the matching picture, and press the "check" button. If you're right, a pirate does a dance on the water. If you're wrong, he moans and falls in the water. (update 22/8/15, the link to this program no longer works and I can't find a new one, sorry). Do you love PvP action? League of Legends tournaments are popular e-Sport events, so if you'd like to watch the pros go at it before trying the game out for yourself, you certainly can. Starfall: There are some activities for practicing the spellings of multisyllable words in Starfall (see above) ALSO If you want to buy a phonics computer game for use at home, Wordshark gets good reviews from kids I know, and is based on sound synthetic phonics principles. Photo Courtesy: Suzi Pratt/Getty Images While the game remains one of the biggest names in e-sports, Dota 2 has seen a decline in player numbers since its release in 2013. If not, put it in the bin. Considering the rewards are fighting orcs in Mordor and protecting pies from hungry hobbits in equal measure, the sounds are well worth it. If the numerous classes, weapons, characters and areas get old, you can always use the included map generation tool and mod kit to create your own dream bug hunt. League of Legends has been around for more than a decade, and it's still going strong. Phomne pop: Choose a group of letters and sounds, and then one of these is spoken and the child has to pop all the bubbles that letter is attached to, and get them to fall into a container at the bottom of the screen. A variation on this game is called Pond Life Plurals Deep Sea Phonics: See above for details, the hardest level contains words of more than one syllable. Some of the themes are good fun e.g. meet the Creeps, who have smelly feet etc. Unlike some free online card games, you also don't need to spend money to have a competitive deck. The T-Rex then gets something to eat.

29/09/2020 • Here you will find 1000's of free CVC worksheets, games and activities for teaching CVC words and sound blending. Teaching CVC skills and segmenting words is an important phonetic skill accords the year groups from kindergarten, second language students and ESL students all the way to first grade and primary students.
