

I'm not robot

You don't need a lengthy training session to create effective videos. Instead, take this 90-minute Video Making for Busy People course and learn how to start making high-quality videos quickly. The course is designed for individuals who struggle to make videos, providing step-by-step guidance on creating engaging content. With over 20 years of professional video-making experience, I'll share my expertise and help you identify the key elements that will transform your video-making process. This comprehensive guide covers everything from editing concepts to software tools, promotion strategies, and style tips. Whether you're a beginner or looking to level up your skills, this course has got you covered. Aaron Goold's illustrious career spans over 15 years in both digital and analog technologies. Notable highlights include his tenure as Director of Post-production for Warner Bros Studio Tour 3D and his work on the feature-length science-fiction film "Immersion: A Metaphysical Wandering," which premiered at the Julian Dubuque Film Festival. In recent years, Goold shifted focus to the computer industry, culminating in the development of Argobot, a Discord-OpenSea messenger. With extensive experience producing films, commercials, podcasts, and digital media for prominent brands, Goold's expertise is multifaceted. For those seeking to create engaging videos, his guide provides comprehensive instruction on video editing, workflow strategies, hosting, delivering, and collaboration techniques. Aimed at beginners, the Video Editing Handbook offers a thorough understanding of easy and clean video editing methods, equipping users with valuable skills in this rapidly growing field.
