When used with StarDock's ModernMix, it'll run in its own window, making it function like a desktop client. In fact, this is a tool which helps in easy and faster management of posting of tweets. This is a free application with no hidden functions to support. The client supports the usual array of Twitter features, but also includes a few that are unique to Windows 8. From Settings, you can also choose Permissions to change privacy settings, toggle notifications, and to allow or disallow the app to run in the background. All you need is to access all the functions using a durable click option. The second time you launch the app, you may be prompted to allow Twitter to run in the background. To toggle snapping the current app to the left, right, or back to full-screen. That's it. Advertisement Advertisement The new Twitter for Windows 8 app can be downloaded from the Windows Store. Using Twitter for Windows 8 After authorization, you'll see the familiar timeline as well as the navigation tabs on the left side of the app: Home, Connect, Discover, and Me. In the upper right-hand corner, you'll also notice the Compose and Search icons. You can also make good use of the help file within the application to give you a guide just in case you are stuck in accessing the functions. If you want show quick status notifications on the lock screen, you should allow it to run in the background. To snap two apps side by side, bring in the second app from the left edge with your finger or the upper left-hand corner with your mouse. And with the Share charm, you can quickly share content from any app to Twitter. The first time you launch the app, you'll need to log in with your Twitter username and password to authorize the app. Screenshot by Ed Rhee/CNET Snap view: One of the cooler features of Twitter for Windows 8 is the ability to snap the app to the side of the screen. Screenshot by Ed Rhee/CNET Search and Share charms: Another distinct feature of the Windows 8 Twitter app is the Search and Share charms. If you're already familiar with Twitter, using the app to compose, reply, retweet, and favorite should be pretty self-explanatory. Desktop Twitter is licensed as freeware for PC or laptop with Windows 32 bit and 64 bit operating system. You can also use the keyboard shortcut, Win+Q for Search and Win+H for Share. When you select a photo, it will display in full-screen. You can also use the keyboard shortcut, Win+. On the interface right on the desktop, you can always show any new tweet from any of the timelines. The Twitter app for Windows 8 is great for Windows 8 tablet and hybrid users, but desktop users might be able to benefit from it as well. Screenshot by Ed Rhee/CNET Settings: If you want to change notifications, log out of the Twitter app, clear search history, or modify display settings, swipe in from the right edge then go to Settings > Options, or use the keyboard shortcut, Win+I and select Options. You can always go back to PC settings and change it later if you change your mind. To access the Charms, just swipe in from the right edge of the screen or move the mouse to the lower right-hand corner. The social media craze need a tool which can allow you to manage different Twitter accounts as well as get notifications n various tweets.
