Who owns painted tree marketplace

Similar to our beloved Sheffield in Collierville, Painted Tree is a large warehouse of 39,000 square meters with 100+ local and southern sellers with cabins set up in everything and rather than antiques. This is your dream, one-stop souvenir shop where you can find pieces of business as well as luxury home decor, with modern styles conjure yourself into everything. Who are these new boys? With other locations in Arkansas and Texas, the original was in West Little Rock, Arkansas, Memphis was lucky to be their first adventure in Tennessee! I mean, we know one thing or two about south charms:). Painted Tree was born from a collaboration between two families who wanted to create something different from a flea market, but a single space to create communities through suppliers and customers. Fuck yeah. Being one of the few color holders Annie Sloan around, they have a workshop called "Annie Sloan 101", teaching how to use its products. In addition, they provide oil painting workshops of canvas and ornament of flowers where you can bring your own pieces to paint. In fact, their next oil painting workshop is happening this weekend! Register to try the things behind the camera at their Photography Laboratory on Saturday (3/30). Let it be a gospel! With a focus on quality products, quality people and quality experiences, Painted Tree Martkplace is highly selective with their suppliers present. If you are interested in joining the Painted Tree family, you can apply through theira painttreemarketplace.com/vendors. Painted Tree Marketplace is open daily from 10 A.M – 8 P.M. Find them on Instagram and Facebook to learn more about what they are leading to Memphis. Shops can lose gifts, home decor, clothing, accessories, soaps, candles and more in the new location.
