[Please use and bookmark PUTLOCKERC.TO for real Putlockers with better experience and safe. All other Putlockers are FAKE, don't use them. What is Putlocker ? If you are a fan of watching movies online for free, you've probably heard of Putlocker. It is a global piracy website that enables the world to download a vast resource of pirated movies and shows for free from Netflix and other sources. The streaming movie service is well-known for its extensive library of films and videos used by millions of people worldwide. Although Putlockers is widespread, the service has faced legal challenges on copyright grounds. This has led to several cloned Putlocker sites with different domain names. Recent Movies Leaked on Putlocker Putlocker have leaked almost every Hollywood blockbuster movie of several international stars. The vast number of films leaked by this site includes Parasite, Avengers: Endgame, Ford v Ferrari, Once Upon A Time In Hollywood, The Lion King, and more. Recently the site has been convicted of leaking movies like Bird of Prey, Joker, Doltite, and more. Apart from movies, this online piracy giant is also responsible for providing free Netflix, Amazon Prime, Hulu, Hoq, Ullu, and other entertainment sites' content. The site is also responsible for leaking TV shows like Stranger Things series, The Punisher, Daredevil, and more. What Makes Putlocker Special? There are many sites online that promise free movies in high quality but deliver nothing but advertising and malware. For many years now, Putlocker has been a welcome exception, offering an ever-growing collection of movies to visitors from around the world. Putlockers included HD, HD-RIP, Blu-ray, and camera qualities of films. The video hosters and players it used included Openload, Streamango, and MyCloud. During its existence and shutdown period, the site was covered by TorrentFreak regarding its features, uptime/downtime. Features of Putlocker Website Powerful search feature : There is a powerful search feature available on this site. You can search for your favorite movie instantly. Request movies : The process of requesting for movies is so simple. Once you notice that the specific film that you are searching for is not available, you don't need to worry about anything. All you have to do is to proceed to the next step and request it in several steps. Then they will update the movie that you want available on the website. Many genres of movies : These categories include A to Z list, top shows, TV series, movies, and country-specific movies. If you are searching for a film with specific preferences, all you have to do is browse through the right category. Then you will come across it. Stream media : You will be provided with the chance to stream content that belongs to a large number of genres. They include science fiction, thriller, history, action, and many more, that's because the host servers are based in the United Kingdom, United States, South Korea, and China. Hence, you will be provided with a super-speedy and uninterrupted stream.
