How to play baseball 9 online with friends

Looking forward to seein everyone at the meeting tomorow and discussin our strategies. Been wanting to play Baseball 9 with buddies for while now. Downloaded game but figuring out how to play together was bit of head-scratcher. Game is super fun solo, but everything's better with friends, right? Dived into menus, poking around everywhere. Started by launching game obviously. Then mess with settings, checked "League" mode, but nothing seemed click. It was all about playing against computer or working on own team's progress. No option to add friends or start match with them. A bit frustrating, gotta say. Then remembered "World Challenge". Decided to give it a shot. Tapped on it and it started loading something. This was getting interesting. After it was done loading, took me to whole new section. Bingo! It looked like I could actually play against other people here! Quickly texted friends and told them to get on and find "World Challenge" section. Menu showed some people I could play against. Hit button to challenge someone, and game started loading up match. Finally, some multiplayer action! Game loaded into match and it was so cool to finally compete against friends. We were all trash-talking each other. It turned out it wasn't that hard, just needed to find right place in game. So, if you wanna play Baseball 9 with friends, here's the lowdown: Launch game and let it load up. Find and tap on "World Challenge". Wait for it to load, which might take a few seconds. Challenge someone to start playing! It's pretty straightforward once you know where to look. I hope this helps someone, cause it took me a while to get it! Finally playing with my friend in Baseball 9 after some trial and error. I was having trouble figuring it out, but then I found the right steps to add friends online. It turns out there's no direct way to play a head-to-head match with friends due to the game's single-player design. However, I can still make new friends, send gifts, and check my friends' status or team members.
