In the middle of the concert, the stadium is attacked by an alien race known as Noise who begin killing the attendees. Tsubasa and Kanade summon mechanical battle armor known as Symphogear to fight off the Noise, but soon find themselves in a pinch. As Kanade tries to protect Hibiki, a stray fragment of her armor comes off and hits Hibiki. With her suit losing power, Kanade sings the superb song, a powerful song that destroys all the Noise at the cost of her own life, leaving Tsubasa devastated. Two years later, Hibiki, who was able to survive, is attending Lydian Music Academy alongside her friend, Miku Kohinata, while Tsubasa, who goes to the same school, continues to fight the Noise alone. As Hibiki goes into town to buy a new CD, she comes across a Noise attack and tries to help a young girl get to safety. When they become cornered, she sings the song she heard Kanade sing that day, which ends up giving her Kanade's Gungnir Symphogear. 02"Noise and Disharmony"Transcription: "Zatsuon to Fukuyōwan to" (Japanese: 雑音と不協和音)January 13, 2012 (2012-01-13) Hibiki uses her newfound ability to protect the girl from the Noise before Tsubasa arrives on the scene to defeat them. Afterwards, Hibiki is taken to the underground headquarters for the Mobile Disaster Response Corps Section Two to run a medical checkup. They soon reveal Hibiki's ability to summon Symphogear comes from fragments of a relic Kanade possessed that entered Hibiki's body during the battle two years ago. As Tsubasa is shocked by the news, Hibiki agrees to fight against the Noise. A large Noise monster appears in the city which Tsubasa defeats, before telling Hibiki that she wants to fight her. 03"Passing in the Night"Transcription: "Yoru ni Surechigau" (Japanese: 夜にすれ逢う)January 20, 2012 (2012-01-20) Tsubasa attempts to attack Hibiki, refusing to accept her as Kanade's replacement, but the fight is halted by Section Two's commander, Genjuro Kazanari. One month later and the two have still been unable to get along with each other. As the Section Two discuss the recent outbreaks of Noise, they theorize the Noise are targeting a collection of relics known as Durandal hidden beneath Lydian Academy. As Hibiki makes plans to watch shooting stars with Miku, she is called away to another Noise outbreak, forcing her to cancel to both girls' ire. After Hibiki and Tsubasa defeat the Noise, they are confronted by a new enemy wearing the Nehushtan Armor that was stolen two years ago. 04"Falling Tears"Transcription: "Rakurui" (Japanese: 落涙)January 27, 2012 (2012-01-27) Five years ago, Kanade was brought to Section Two after her family was killed by the Noise. Wanting to get revenge on the Noise, she underwent harsh medical treatment to become compatible with the Gungnir relic and gain Symphogear. As she began fighting alongside Tsubasa, she grew a appreciation for sharing her music with others and formed Zwei Wing with her. Back in the present, Tsubasa faces off against the girl in the Nehushtan Armor who reveals her goal is to capture Hibiki. As her opponent starts to overwhelm her, Tsubasa sings her superb song, which forces the armored girl to flee, whilst Tsubasa barely survives the damage done to her body. As Tsubasa slowly recovers, Hibiki hears about how she was affected following Kanade's death two years ago and becomes depressed, feeling everything has been her fault. After some encouraging words from Miku, Hibiki resolves to be herself and become stronger to protect others and begins training with Genjuro. 05"From the Bottom of Darkest Depths"Transcription: "Nao Kuraki Shinen no Soko Kara" (Japanese: なお書き深淵の底か)February 3, 2012 (2012-02-03) As Chris, the wielder of the Nehushtan Armor, is punished for the failure of her mission by her mysterious mistress, Tsubasa regains consciousness after speaking with Kanade in her dream about how she should live. Meanwhile, the Minister of Defense is assassinated by terrorists, targeting a case that Ryoko manages to recover. Ryoko explains the case contains a chip pertaining to the Durandal sword hidden beneath the base. Hibiki accompanies Ryoko on a mission to escort Durandal to a safe location, but they are soon confronted by Chris and a group of Noise which Hibiki fights off. The Durandal responds to Hibiki's voice and activates, and despite Chris' attempt to grab it, Hibiki grabs it instead, giving her a short moment of incredible power which drives off Chris. 06"Where Omens Lead"Transcription: "Kizashi no Yukue wa" (Japanese: 兆しの行方)February 10, 2012 (2012-02-10) As Chris vows to her mistress, revealed to be named Finé, that she will take Hibiki down with her own power, Hibiki is asked to help look after Tsubasa whilst she recovers. As Tsubasa asks to hear from Hibiki about what she fights for, Miku spots the two together and becomes determined to talk with Hibiki. When Miku ends up getting caught in the battlefield when Chris appears, Hibiki is forced to reveal her secret to save her. Luring her away, Hibiki attempts to reason with Chris, but she is unwilling to listen. Being unable to construct an Armed Gear like Tsubasa, Hibiki instead uses the required energy to power her punch and break through Chris' armor. 07" Fate Just Keeps Firing"Transcription: "Uchiteshi Yamanu Unmei no Motoni" (Japanese: 撃てて止まぬ運命のもと)February 17, 2012 (2012-02-17) As Hibiki tries to reach Chris' feelings, Chris activates her own relic, Ichaival, and attacks using her own Symphogear. Just as Tsubasa arrives on the scene to back Hibiki up, Finé arrives and breaks up the fight, taking the Nehushtan Armor and telling Chris that she no longer has use for her. Later that night, Chris comes across a pair of siblings and helps reunite them with their father. Meanwhile, Miku is mad at Hibiki for lying to her, telling her that she can no longer be friends. As Chris tries to confront Finé over abandoning her, Finé dons the Nehushtan Armor and attacks her. 08"No Shadows in the Sunlight"Transcription: "Hidamari ni Kageri Naku" (Japanese: 陽だまりに影りなく)February 24, 2012 (2012-02-24) Whilst having a walk, Miku encounters Chris, who had become exhausted from being chased by the Noise, and decides to help nurse her back to health. As Chris explains her troubled childhood to Miku, a Noise alert appears, with Chris blaming herself for bringing them there. When Chris has trouble transforming, Genjuro appears to defend her whilst she transforms and leads the Noise away. Meanwhile, Hibiki encounters Miku and an okonomiya shop owner as they are trapped by an octopus-like Noise who detects noises. After apologizing to Hibiki, Miku decides to lead the Noise away to give Hibiki a chance to transform, arriving just in time to defeat the Noise and save Miku. After Miku confesses the reason she was angry was because she was fearful of Hibiki's safety, the two make up with each other. 09"Protector's Song"Transcription: "Sakimori no Uta" (Japanese: 防人の歌)March 2, 2012 (2012-03-02) After Miku joins the second division, Genjuro goes to see Chris, explaining how he was to become her guardian after she was rescued from trafficking two years ago, but she refuses his help. Having fully recovered from her injuries, Tsubasa is invited by Hibiki and Miku to spend the day together, where she comes to understand some of Kanade's words. Tsubasa decides to participate in a music festival taking place at the arena where that fateful incident took place. On the night of the concert, Hibiki decides to take on a Noise case on her own, where she teams up with Chris. Following the concert, Tsubasa decides to take on an overseas contract. 10"What Only Clapsed Hands Can Create"Transcription: "Tsunaida Te Dake ga Tsugumu Mono" (Japanese: 繋いだ手だけが紡ぐもの)March 9, 2012 (2012-03-09) Ryoko is attacked by some American terrorists while working in Finé's mansion, but she fuses with the Nehushtan Armor in a desperate move and kills them. As Chris and Genjuro come across the scene, Genjuro helps Chris understand what her parents fought for. As the Second Division investigate a clue given to them by Chris, Kadingir, a group of large airborne Noise appears over Tokyo Sky Tower, with Chris arriving to assist Hibiki and Tsubasa. Despite some hostility from Chris, Hibiki helps her and Tsubasa get along and together they defeat the Noise. Afterwards, Hibiki receives a distressing call from Miku, that the academy is under attack by the Noise. 11"Shoot the Moon"Transcription: "Tsuki o Ugatsu" (Japanese: 月を撃つ)March 16, 2012 (2012-03-16) As Ogawa tries to get Miku to safety to the Section Two headquarters, they are attacked by Finé, who is revealed to be Ryoko as Genjuro arrives on the scene to fight against her. However, Finé manages to critically wound Genjuro and goes on to take the Durandal. As Finé goes on to confront Hibiki, Tsubasa and Chris as they arrive on the scene, she explains how she is an ancient priestess who possessed Ryoko's body twelve years ago and thanks to Tsubasa's accidental awakening of the Ame no Habakiri, Finé then proceeds to bring out the Kadingir, a huge cannon that she had been building in the Section Two's elevator shaft all this time, which she plans to use to destroy the moon to remove the Cause of Balal that had caused humanity to lose the one only language that could converse with God and each other, and at the same time create worldwide chaos due to the gravity collapse brought by its destruction, which she hopes to force humanity to bow to her in their fear. As the cannon prepares to fire, Chris sings her superb song and sacrifices herself to stop the beam from completely destroying the moon, to the shock of Hibiki. 12"Symphogear"Transcription: "Shinfogia" (Japanese: シンフォギア)March 23, 2012 (2012-03-23) Shocked by Chris' supposed death, Hibiki goes berserk and loses control, attacking relentlessly at both Finé and Tsubasa. As Kadingir prepare to fire another shot at the moon, Tsubasa takes the full brunt of Hibiki's attack in order to hold her in place before standing to face against Hibiki in order to try and launching a kamikaze attack which destroys Kadingir. As Finé turns her anger on Hibiki, who is not sure what to fight for anymore, the girl Hibiki had previously saved gives Miku the idea to, with the help of her friends, send Hibiki everyone's words of support. Upon hearing her classmates sing her school's anthem, Hibiki, along with Tsubasa and Chris who had survived, unleash the Symphogear's true potential. 13"Meteoroids Falling, Burning, Disappearing, and then..."Transcription: "Nagareboshi, Ochite Koete Kotogotoku, Soshite..." (Japanese: 流れ星、落ちて燃えてきて、そして...)March 30, 2012 (2012-03-30) As Finé summons an entire army of Noise, Hibiki, Tsubasa and Chris work together to fight them off. Just then, Finé fuses herself with Durandal and the remaining Noise to become the Red Dragon of Revelations. Working together, Tsubasa and Chris manage to retrieve Durandal from Finé and pass it on to Hibiki who manages to control its power thanks to Miku and the others and defeats Finé. Unwilling to listen to Hibiki's words, Finé uses the last of her strength to pull the loose fragment of the moon towards the earth. However, Hibiki asks Finé to, when she reincarnates, pass on the message that people will one day understand each other. Finé, moved by Hibiki's kindness, tells her to believe in the song of her heart, before fading away into dust. As Hibiki goes along to stop the fragment using her superb song, Tsubasa and Chris join her and together they sing the ultimate superb song to destroy the fragment. Some time later, as Miku finds herself cornered by Noise, Hibiki, Tsubasa and Chris return safe and sound. Symphogear G (2013) No. Series No. Title Original airdate 0114" The Gungnir Girl"Transcription: "Ganguniru no Shōjo" (Japanese: ガングニールの少女)July 4, 2013 (2013-07-04) Three months following the battle with Finé, Hibiki and Chris work together to fight off the Noise and protect a transport carrying the Solomon's Cane, which scientist Dr. Ver believes could hold the key to fighting the Noise. However, before they can leave to see Tsubasa's concert alongside diva Maria Cadenzanza Eve, the base they are delivering it to is attacked by the Noise, preventing her from escaping to where she can safely transform. Just as Tsubasa is knocked towards a group of Noise, Ogawa manages to join down the cameras in time, allowing Tsubasa to activate her Symphogear and fight back. Before Tsubasa can get the upper hand on Maria, two more enemy Symphogear users, Shirabe Tsukuyomi and Kirika Akatsuki, arrive on the scene, although Hibiki and Chris arrive shortly after to back Tsubasa up. The head of Maria's operations, Professor Nastassja, sends in a giant regenerating Noise to allow Maria's team to retreat. To prevent in from escaping and endangering the public, Hibiki, Tsubasa and Chris use a combined superb song to expose its core, allowing Hibiki to destroy it. As the battle comes to an end, Hibiki feels hurt by Shirabe's words claiming she her ideals are merely the words of a hypocrite, bringing up some traumatic memories of her past. 0316"Those Who Long for the End, Those Who Challenge the End"Transcription: "Shūen o Nozomumono, Shūen ni Nozomumono" (Japanese: 終焉を望む者、終焉に臨む者)July 18, 2013 (2013-07-18) A week following the incident, and Hibiki is still concerned over what Shirabe said whilst Tsubasa and Chris, who had enrolled into the academy, help with preparations for an upcoming school festival. Later that night, Hibiki, Tsubasa and Chris are sent to infiltrate an abandoned hospital filled with Noise, affected by a gas that decreases their sync with the Symphogears. Dr. Ver soon appears, revealing he stole Solomon's Cane for himself and is working with the enemy. As Chris starts to become affected by the feedback on her Symphogear's attacks, Ver plans to unleash an experimental new creature known as a Nephilim onto the city, forcing Tsubasa to chase after it. Before Tsubasa can destroy the Nephilim, Maria appears before her once again, with Ver announcing her to be the reincarnation of Finé. 0417"The Place I Call Home"Transcription: "Atashi no Kaeru Basho" (Japanese: あたしの帰る場所)July 25, 2013 (2013-07-25) Tsubasa engages in battle with Maria whilst Shirabe and Kirika arrive to fight off Hibiki and Chris whilst they retrieve Ver. Nastassja soon arrives and assists Maria and the others in their retreat, taking Ver and the Nephilim with them and evading pursuit using stealth technology. The next day, as the festival gets under the way and Hibiki and Miku watch their friends perform, Shirabe and Kirika are sent on a mission to infiltrate the school and steal the Symphogear pendants to use as food for the Nephilim. Meanwhile, Chris is dragged in by her new classmates to perform for a karaoke contest, where she finds herself having fun. After her performance, however, Shirabe and Kirika reveal themselves and prepare to challenge her. 0518"Bloodstained Serenade"Transcription: "Chishibuki no Sayokoku" (Japanese: 血染めの小夜曲)August 1, 2013 (2013-08-01) Shirabe and Kirika decide to enter the karaoke contest themselves, singing one of ZweiWing's songs so that they can win Chris' pendant. Meanwhile, armed forces approach a warehouse where Maria and Nastassja are hiding, but are confronted by Ver and his Noise army. Maria breaks down when she sees Ver mercilessly kill a group of children who happened to stumble upon the base, prompting Nastassja to have Shirabe and Kirika retreat before they can be declared winners. Hibiki, Tsubasa and Chris briefly catch up to them, questioning why they fight when they seem to enjoy singing, to which they say they will settle things in a duel. They are called to HQ where it is revealed Hibiki and Maria's Gungnirs share the same resonance pattern. Meanwhile, Nastassja recalls how Maria's sister, Serena, had used her superb song to stop a rampaging Nephilim prototype, ending her life in the process. Later that day, the girls head to the former site of Kadingir for their arranged duel, only to find out that the moon will fall towards Earth once more before sending the Nephilim to attack them. Hibiki fights against the Nephilim but becomes distracted by Ver's words, leading to her arm being bitten off by the Nephilim. 0619"A Miracle is a Cruel Thing"Transcription: "Kiseki - Sore wa Zankoku na Kiseki" (Japanese: 奇跡――それは残酷な軌跡)August 8, 2013 (2013-08-08) The Nephilim evolves from the energy gathered from Hibiki's arm, but Hibiki enters her berserk state again, regenerating her arm in the process, and rips out the Nephilim's heart before completely annihilating it. As Hibiki undergoes recovery, she recalls how she was unfairly treated like a murderer by her old classmates due to being the only survivor of the ZweiWing incident. Meanwhile, Tsubasa learns from Genjuro that Hibiki's constant use of Gungnir is causing it to spread across her body, fearing that it may end up killing her, or otherwise leaving her inhuman. Keeping this a secret from Hibiki, Tsubasa tells her that she shouldn't use her Symphogear again, using the berserk state as an excuse. Elsewhere, as Nastassja's illness starts to develop, Shirabe and Kirika search for Ver, who finds the Nephilim's heart and attacks near the school, prompting Hibiki to go into action. 0720"When You Stop Being You"Transcription: "Kimi de Irare Nakunaru Kimi ni" (Japanese: 君いでられなくなるキミに)August 15, 2013 (2013-08-15) Brimming with more power than usual, Hibiki fights through Ver's defenses, only to be stopped by Shirabe and Kirika. As Hibiki suddenly feels a pain in her chest, Ver injects Shirabe and Kirika with an overdose of LINKER serum so they can use the superb song against Hibiki. In order to stop them from doing the same way Kanade did, Hibiki uses her own superb song to cancel theirs out, firing off their excess energy into the sky. After Shirabe and Kirika retreat with Ver so he can treat Nastassja, wondering why Hibiki was trying to protect them, Tsubasa arrives on the scene to stop Hibiki from overheating. As Ver reveals his plan to use the Nephilim's heart with the Senshou Jing artifact they had retrieved, Genjuro informs Chris and Miku about Hibiki's condition, asking Miku to keep Hibiki from fighting so it doesn't spread further. Coming to understand Maria's kind heart, Nastassja informs her that she no longer has to play the role of Finé. Elsewhere, Kirika ends up protecting Shirabe from some falling pipes with a strange power. 0821"Hand in Hand for Me, As I Waver..."Transcription: "Tsunagu Te to Te..." Tomadou Watashi no Tame..." (Japanese: 繋ぐ手と手...戸惑うわたしのため...)August 22, 2013 (2013-08-22) It is revealed that Nastassja has merely told Maria to play the role of Finé's successor in order to gain Ver's co-operation. As Kirika starts to realize the cause of her new power, that she herself is Finé's vessel, Hibiki is informed of her condition and is told to take things easy to help find a cure. Meanwhile, Nastassja's group use their relics to try and unleash something known as Frontier, only for it to fail to Ver's dismay, as they lack sufficient power. The next day, as Hibiki and Miku go to the Sky Tower, Nastassja and Maria also go there to negotiate with some US government agents, which is interrupted when Ver sends Noise after them just as they turn on them. As Maria makes her escape, fighting through both Noise and army soldiers, Hibiki and Miku work to help evacuate some of the citizens, which leads to Hibiki being knocked off the building. Activating her Symphogear to break her fall, Hibiki is shocked to see an explosion where Miku was standing. 0922"The Origin of a Hero"Transcription: "Eiyū Koi" (Japanese: 英雄故事)August 29, 2013 (2013-08-29) As Tsubasa and Chris arrive to finish off the Noise, Hibiki falls into depression, believing Miku to have been killed. Meanwhile, Maria reveals to the others that she is not Finé, whilst still stating her desire to cooperate with Ver. The next day, Genjuro reveals they have found a GPS left behind by Miku, revealing she had survived the explosion, as she was rescued by Maria and is currently being held on their ship. Thankful that Miku is still alive, Hibiki and the others train their bodies with Genjuro. The next day as the Noise launch an attack on an aircraft carrier, Shirabe, not wanting Maria to suffer from seeing more people die, decides to fight against them. However, Ver instructs Kirika to inject Shirabe with Anti-LINKER to knock her out of her Symphogear state. However, just as Tsubasa and Chris arrive on the scene, Ver reveals his latest experiment, in which Miku has been made into a Symphogear user. 1023"Countdown to Loss"Transcription: "Sōshitsu made no Kauntodōan" (Japanese: 喪失までのカウントダウン)September 5, 2013 (2013-09-05) Miku, who was experimented on by Ver with LINKER to make her compatible with the Shen Shōjing relic, battles against Chris, initially taking the brunt of her attacks before unleashing a powerful laser capable of destroying Symphogear armor, forcing Chris to block against it to protect Shirabe before Tsubasa gets them to safety. As HQ takes Shirabe into custody whilst Chris fights against the Noise, Kirika stands in Tsubasa's way, leading Hibiki to confront Miku herself. Miku states she desired the Symphogear's power to keep Hibiki from fighting, but Hibiki states it isn't worth having a world without Miku in it and transforms to fight against her, given under three minutes before she overheats. Despite the Gungnir relic spreading through her body, Hibiki keeps fighting through to reach Miku's humanity, using Miku's own laser to destroy her relic. As an ancient civilization rises from the ground, Chris suddenly shoots Tsubasa. 1124"Destiny Ark"Transcription: "Disutini Ark" (Japanese: ディスティニーアーク)September 12, 2013 (2013-09-12) As Miku makes a full recovery, it is revealed the blast she and Hibiki took both freed Miku from her mind control and removed Hibiki's relic, curing her condition. Meanwhile, Chris joins the FIS as they explore Frontier, where Ver powers up using the Nephilim heart. Injecting himself with LINKER, Ver activates the Frontier, using the moon itself to pull it out of the sea, before destroying many fleets with its gravitational power. With the moon brought even closer to Earth, Ver reveals to Maria that his vision of saving mankind is to destroy all humanity and repopulate the Earth himself, leaving Maria devastated. As Tsubasa heads off towards Frontier, Hibiki encourages Shirabe to do what she knows is right and go as well, hitching a ride with her. Arriving at Frontier, Tsubasa soon comes up against Chris as Shirabe goes up against Kirika, whilst Hibiki pushes ahead to find Maria, who is informed by Nastassja that her song may be able to stop the moon from falling. 1225"Striking Spear"Transcription: "Gakiso" (Japanese: 撃槍)September 19, 2013 (2013-09-19) Hoping to use the power of song to reactivate functions on the moon to bring it back into orbit, Maria broadcasts her song across the world. Meanwhile, Tsubasa, noticing an explosive collar on Chris' neck, assures her that she always has a place to belong to and can rely on others, before their battle reaches their climax. Kirika and Shirabe's battle escalates to the point of using their superb songs, where it is discovered that Shirabe was actually the one who possesses Finé's power. Feeling guilty, Kirika attempts to kill herself, but Shirabe takes the hit. Chris, freed from her explosive collar thanks to Tsubasa, appears before Ver demanding Solomon's Cane, countering his Anti-LINKER by bursting out of her gear, before she is rescued by Tsubasa, recovering the cane in the process. In her conscience, Shirabe is approached by the soul of Finé who, having taken Hibiki's words to heart, gives her own life to save Shirabe so that she and Kirika can help save Maria. Back in the control center, Ver launches the dome where Nastassja is towards the moon, but Hibiki stops Maria from killing Ver, instead taking on the power of Maria's Gungnir relic, reviving her Symphogear. 1326" In the Distance, That Day, When the Star Became Music..."Transcription: "Haruka Kanata, Hoshi ga Ongaku to Natta..." ka no Hi" (Japanese: 遙か彼方、星が音楽となった...)October 26, 2013 (2013-09-26) As Ver escapes and starts bringing Frontier up towards space, Genjuro pursues him whilst Hibiki joins Tsubasa and Chris to search for the Nephilim heart powering Frontier, coming up against a giant Nephilim Ver sends after them. Meanwhile, Maria is greeted by the spirit of Serena, who sings alongside her and the world, providing Nastassja with the energy she needs to put the moon back into orbit. As Shirabe and Kirika join Hibiki and the others in fighting the Nephilim, Maria uses the relic Serena left behind to combine the power of everyone's song and defeat the Nephilim. His plans failed, Ver attempts to overload the Nephilim heart, unleashing its true form, which can absorb the power of Symphogears. Using Solomon's Cane, the girls open a gate to the Noise's dimension, pushing the Nephilim inside it, entering the dimension themselves when Maria is dragged inside too. After combining their power to break through the Nephilim and return to Earth, Miku manages to seal the gate before the Nephilim explodes, taking out all of the Noise inside the dimension. With the world safe again, Maria expresses her gratitude towards Hibiki, letting her keep the Gungnir relic. Three months later, Section Two has been reorganized into the S.O.N.G. task force, who provide disaster relief around the world, while Shirabe and Kirika join Hibiki and the others at Lydian Academy. As they get together with their friends to watch Tsubasa and Maria performing a concert in London, Hibiki and Chris are called to rescue civilians from a fire, triggered by someone chasing after a hooded girl carrying a box. Meanwhile, Maria is attacked by a mysterious doll-like "Autoscorer" named Phara, a young girl who suck the life energy out of people, with Tsubasa coming to her aid. After rescuing everyone from the fire, Hibiki is confronted by a girl named Carol Malus Dienheim, who states her desire to destroy the world and attacks her with a mysterious magic. 2 (28)"Before I Destroy the World..."Transcription: "Sekai o Kowasu, Sono Mae ni..." When a second enemy attacks, Chris is able to escape, having thanks to a girl named Elfnein, who reveals she comes from a world of alchemists. Meanwhile, Carol tells Hibiki that destroying the world is task given to her before retreating, leaving Hibiki shocked with thoughts of her own father before passing out. Meanwhile, as Tsubasa and Maria attempt to flee from Phara, Maria suspects that Tsubasa is the one being targeted, lamenting how she herself has been forced by the government to pretend to be an agent. Both Tsubasa and Chris are soon put into a pinch when their opponents summon Alca-Noise, a new breed of Noise that has the power to destroy their Symphogear armor. 3 (29)"Twilight of the Wielders"Transcription: "Sōshatachi no Tasogare" (Japanese: 奏者たちの黄昏)July 17, 2015 (2015-07-17) With Tsubasa and Chris' Symphogear destroyed by the Alca-Noise, Shirabe and Kirika, despite being hindered by being unable to use LINKER, step in to help Chris and Elfnein escape safely while the enemy dolls, having completed their mission, retreat. Later, after Tsubasa and Maria return to Japan, Elfnein explains Carol's motives to the others, presenting them with a relic known as the Däinsleif. The next day, as Hibiki and her friends are confronted by the third Autoscorer, Galie Tumpo, who summons more Alca-Noise, Hibiki, who had been conflicted about using Gungnir to fight, suddenly finds herself unable to sing the chant needed to transform. 4 (30)"Gungnir, Once More"Transcription: "Ganguniru, Futatabi" (Japanese: ガングニール、再び)July 24, 2015 (2015-07-24) As Hibiki and her friends are forced to flee, Maria arrives and uses Hibiki's relic to fight off the Alca-Noise with her Black Gungnir armor. Galie fights back, but Maria loses sync with the relic before she can destroy it, retreating instead. Wanting Hibiki to be able to sing again, Miku takes her on a walk to try to help her remember the reason she sings, only to come under attack by the fourth Autoscorer, Michia Jawkan. Pushed into a corner, Miku reminds Hibiki of all the people she saved with her power, giving her the resolve to transform once more. However, she is caught off guard by Galie's illusions and is dealt a critical blow to her relic by Michia. Determined to save Hibiki, Tsubasa and Chris prepare to go along with Elfnein's plan to counter the Alca-Noise; Project Ignite. 5 (31)"Edge Works"July 31, 2015 (2015-07-31) A week later, as Hibiki is still in a coma following her battle with Michia, Elfnein works on upgrading the relics with her Project Ignite, briefly experiencing some of Carol's memories of her father. When Alca-Noise start attacking generators in an attempt to cut off the base's power supply, Shirabe and Kirika steal some LINKER and go out to battle in order to buy Elfnein some time, coming up against Michia in the process. As both Shirabe and Kirika's relics are destroyed by Michia and her Alca-Noise, they are saved by the arrival of Tsubasa and Chris wielding their new and improved Symphogear armor. 6 (32)"Drawn Blade"Transcription: "Bakken" (Japanese: 抜剣)August 7, 2015 (2015-08-07) Using their enhanced Symphogears, Tsubasa and Chris manage to withstand the effects of the Alca-Noise. Pushed by Carol's attacks, Tsubasa and Chris activate their relics' Ignite Module, in which they must fight their own impulses in order control the raw power previously seen in Hibiki's berserk form. As the two struggle to face their own burdens and regrets, they manage to snap each other out of it before they lose control. With her relic repaired, Hibiki joins the others and encourages them to try the Ignite Module once more, this time managing to overcome it and enter new forms that have the power to fight back against Carol. Having burned up the memories of her own motivation, Carol taunts Hibiki about her own cursed memory before using a capsule to burn herself to ashes. 7 (33)"Carry on the Shining Light, and Stay True to Yourself"Transcription: "Kagayaki wo Tsugu, Kimi Rashiku" (Japanese: 輝きを継ぐ、君らしく)August 15, 2015 (2015-08-15) After Maria, Shirabe, and Kirika's relics are repaired by Elfnein, everyone is sent on a training camp at the beach in order to master the upgraded Symphogear. Just as they are enjoying themselves, they come under attack by Galie, who appears to be acting without Carol's orders. Determined to prove her strength, Maria attempts to activate the Ignite Module against her, but ends up going berserk instead and winds up losing. Lamenting her defeat, Maria spends time with Elfnein, where they are once again confronted by Galie, with Phara using the distraction to sneak into their base to obtain some data. With Elfnein echoing her own advice to stay true to herself, Maria finds strength in accepting her own weakness and overcomes the Ignite Module, using her new form to defeat Galie. As Shirabe and Kirika end up arguing with each other following the incident, Genjūrō determines Michia's purpose was to download conduit route data to locate hidden entrances. Later, Leur attacks the HQ while Michia targets Shirabe and Kirika, who learn that the reason they were arguing was because they didn't want to become a burden to each other. Realizing that people get mad at them because they care, the two activate their Ignite Modules and combine their strengths to defeat Michia. Tsubasa soon comes up against Phara, who overwhelms her with her ability to destroy anything defined as a sword before destroying her family's keystone. Afterwards, Tsubasa explains how the decisions of her grandfather, revealed to be her biological father, left her in a poor relationship with Yatsuhiro. When Phara attacks again later that night, she receives encouragement from Yatsuhiro to focus on her own dreams, showing that he had always cared for his daughter, allowing her to overcome her own definition as a sword and defeat Phara. Meanwhile, Chris' team confront Carol and Leur to stop them stealing a relic, only to suddenly come up against Dr. Ver, who had been held captive in the palace. 10 (36)"It's So Cruel, But..."Transcription: "Konna ni mo, Zankoku dakedo" (Japanese: こんなにも、残酷だけど)September 4, 2015 (2015-09-04) With Shirabe and Kirika unable to bring themselves to attack Ver, since he is the only one who can produce LINKER, Chris is scolded for using her ability recklessly in trying to stop them. Meanwhile, Carol reveals to HQ that she had been using Elfnein as a mole without her knowing, while Tsubasa and Maria learn from Phara that Carol's plan is to make the wielders use Ignite Modules on the Autoscorers. Unaware of any of this, Chris, reminded of the warmth she had been seeking by Shirabe and Kirika, activates her Ignite Module and works with the others to fight back against Leur, after which they retreat back to HQ and prepare to fight against Leur's giant form. 11 (37)"It's All Right. Meanwhile, Hibiki meets up with her father again, telling him he needs to be the one to take the first step in getting their family back together. Just then, Carol's Chateau appears in the sky, powered by both the cursed melodies gathered by the Autoscorers and the assistance of Ver. After deeming Ver of no further use and seemingly dispatching him, Carol turns her attention towards Hibiki, knocking away her relic. While seemingly running away in fear at first, Hibiki's father manages to distract Carol long enough to retrieve Hibiki's relic, helping Hibiki realise that he had always been protecting her in her own way. Hibiki is soon joined by the other wielders as they get her father to safety and once again confront Carol, as she uses her relic's Burst Mode to resonate with the Chateau as it spreads a photosphere across the entire planet. While Hibiki, Tsubasa, and Chris fight against Carol, Maria, Shirabe, and Kirika head inside the Chateau to try and shut it down, where they suddenly find themselves in the presence of what appears to be Nastassja. 12 (38)"GX"September 19, 2015 (2015-09-19) Maria's group flee from the fake Nastassja before them and come across Ver, who leads them to the Chateau's center. While Maria and the others face against the Chateau's defense, which takes the form of their past sins, Ver rewrites the Chateau's program with support from Elfnein in order to stop the disintegration, with the Chateau exploding with everyone still inside as a result. As Carol laments her failed plans, Elfnein explains what her father really wanted was to bring harmony to the world and give the world forgiveness. Refusing to accept this, Carol prepares to burn away all of her memories to exact her revenge, prompting Hibiki and the others to fight back with the Ignite Modules, releasing all of its safeties to try and match Carol's output. When this proves to be insufficient as well, Maria and the others arrive and combine their powers with everyone, using Carol's own phonic gain to surpass the Ignite Modules' limits and unleash their true form. 13 (39)"Believe in Justice and Hold It Close"Transcription: "Seigi wo Shinjite, Nigirishimete" (Japanese: 正義を信じて、握り締め)September 25, 2015 (2015-09-25)[4] Believing miracles were the thing that condemned her father to death, Carol spreads Alca-Noise across the city, the Symphogear wielders, sensing that Carol is feeling alone, fight against them. Three days later, as Carol's whereabouts remain unknown, Hibiki laments over not being able to do much for Elfnein's declining condition, but Miku gives her some support. Later that night, Elfnein is approached by Carol, who appears to have lost all of her memories, stating her desire to live and merging with Carol to become one. Upon distracting the enemy so that the Symphogear users can attack, Stephan gets caught by a Noise, forcing Chris to shoot off his leg to save him from disintegrating entirely. This decision leads to Chris getting lashed at by Stephan's sister, Sonia, who she used to be friends with until her parents' death. With no other choice, Saint-Germain decided to stop the missile while singing, with the help of Cagliostro and Prelati, who faked their deaths after their last battles. The Alchemists sacrificed themselves to completely stop a massive explosion. Just when it's all over, Adam used his robotic arm to finally absorb the Divine Power. However, Tiki, who is somehow alive, stopped him from acquiring the Divine Power, giving Hibiki a chance to destroy Adam's arm, along with the Divine Power itself, permanently. 13 (52)"By Shedding Many Tears, the Reality You Face is..."Transcription: "Namida wo Kasaneru Tabi, Shōmei sareru Genjitsu wa" (Japanese: 涙を重ねる度、証明される現実は)September 30, 2017 (2017-09-30) After destroying the Divine Power, Hibiki grieves over Saint-Germain's death for a moment. At S.O.N.G. headquarters, Elfnein and the others realized that the Alchemists used their Philosopher's Stones perfect purification to nullify the WMD, but at a great cost of losing their lives in the process. Hibiki wanted to socialize with Saint-Germain when she wished she didn't want any of this to happen and they could have found mutual understanding. Then, as Adam destroys the remains of Tiki, he told the girls that because the Curse of Balal, everyone will never reach mutual understanding. However, Hibiki lectures Adam that trying to understanding people was never in vain and the girls also told him that failure leads to success. Furious that he was lectured by the girls, Adam summons an entire army of Alca-Noise. The girls managed to destroy the Alca-Noise, while Hibiki gets through them to fight Adam. When he is finally weakened, Hibiki used all of her power to hit him. However, Adam's new arm was regenerated, and with that, he showed his true form: A giant robotic demon (as he said that he will have to don the Devil's horns). Adam easily overpowers the girls. While in the decisive battle with Adam, Hibiki heard Saint-Germain's voice and saw her spellcaster gun. As Hibiki tried to get the gun, Adam grabs it and uses the Faust Robe's manifestation energy against Hibiki. When Adam makes his finishing blow, the girls were forced to sing the Superb Song to drain the Faust Robe's energy, with the help of Elfnein and the other operators who used a bypass to divert some of the strain to the Dainsleif in order for them to not explode. After that, the girls transformed their Symphogears into their Last Ignition mode. They managed to fight back Adam, but Hibiki was left vulnerable when her gear wasn't cleaned of the aftereffects. As Adam makes his finishing blow again, the other girls managed to save Hibiki by transferring their Symphogear powers to her. Hibiki, in her Armed Gear form, used all of the powers from the girls to fight back Adam, but he grabs her in attempting to crush her. While doing that, Adam told Hibiki and girls that the Custodians (or Annunaki) were coming to earth (in response to the first and second season when the Curse of Balal is in danger). Fortunately, Chris tells Hibiki break free from Adam's grasp with Armor Purge. After Hibiki transforms one more time, only this time with the help of the spirits of the Alchemists (who will live inside of Hibiki from now on), Hibiki's Gungnir is now turned into a Chrysopoeia form. With that power from the Alchemists, Hibiki finally destroys Adam once and for all when she unleashes a fury of punches that raise him in the air and punches his chest one more time to powering her fists and getting through his torso. Before he explodes into oblivion, Adam share his last words and said: "You may have slaughtered me, but there is no hope for this world. In your tomorrow, in your future lies only despair." Three days later after Adam's death, Elfnein wants to investigate the events about how Hibiki manage to become a vessel for the Divine Power and S.O.N.G. were working with intelligence agencies to hunt down the remnants of the Pavarian Illuminati after their organization is left divided. Genjuro wonders if what Adam said the threat of the Custodians and how to deal with them in the future. At evening, Fudou and Yastuhiro were discussing that America was prohibited from intervening with other countries for a period of a century. Fudou witnessed the Divine Power that rivaled the gods and recommends that Japan should have that kind of power so they could deal with invaders or the loss of others who got killed in further supernatural disasters. Later that night, the girls celebrate Hibiki's birthday at Miku's house. Afterwards, Hibiki asks Miku if what she was doing was right, in which Miku responds that she will always believe in her no matter what. In the epilogue, Elfnein informs Genjuro about Hibiki and the Curse of Balal, and that Hibiki wasn't the only one who got struck by the Shenshou Jing's light, the other person who was also struck by it was none other than Miku. Although the rocket is destroyed, Kirika and Shirabe use their Amalgams to overpower Elza before Tsubasa allows the welders to hijack Noble Red's teleportation spell, sending them to the lunar ruins. 11 (63)"In The Beginning Was The Word""Hajime ni Kotoba Ariki" (はじめにコトバアリキ)September 14, 2019 (2019-09-14) Both the welders and Noble Red are spread across the lunar base Marduk, having to deal with its automated defenses. Meanwhile, Maria's relic leads her and Tsubasa to Marduk's core, whether they speak with an operating system based on the mind of Enki. Enki reveals that Shem-Ha had instilled herself a data fragment in all human beings, forcing him to seal her using the Curse of Balal, which Shem-Ha now seeks to destroy in order to control all of humanity with Yggdrasil. Tsubasa and Maria are confronted by Millaarc, who uses a clone of herself to fight against them, but the two use their unified songs and Amalgams to defeat her. Back on Earth, however, Yggdrasil towers start raising all over the planet. 12 (64)"Senki Zessho""Senki Zessho" (戦姫絶唱)September 21, 2019 (2019-09-21) Despite Elfnein and Carol's attempt to stop her, Shem-Ha begins using the world's computer networks to have Yggdrasil cover the entire globe in a barrier. Back on the moon, Hibiki and Chris face off against Vanessa, ultimately saving her and the others from being sucked into space. However, Shem-Ha takes control of Vanessa and uses her to install a virus in the Marduk's network in order to destroy it, forcing Noble Red to use the last of their strength to send the welders back to Earth, resulting to their deaths similar to how Saint-Germain and her friends risked their lives to save the others. With humanity working together to hold back Shem-Ha's hacking attempt, the welders activate their X-Drive in preparation for their final battle against Shem-Ha. 13 (65)"Let's Make History With A Light That Even the Gods Don't Know""Kami-sama mo Shiranai Hikari de Rekishi o Tsukuro" (神様も知らないヒカリで歴史を創ろう)September 28, 2019 (2019-09-28) As Shem-Ha brings out her final form to fight the welders, Carol burns up her memories to protect them from Shem-Ha's attack. Shem-Ha then begins using her bio-terminal network to take control of all of humanity, but Hibiki (immuneed to Shem-Ha's control due to the after effects of Shen Shou Jing), fueled by determination to save Miku, manages to disrupt Shem-Ha's power and finally drive her out of Miku's body. With Yggdrasil still active and is about to terraform the entire earth, Miku once again dons the Shen Shojing armor. She was told by the late Carol and explained to the welders that even if they managed to destroy one of Yggdrasil's core, another one will finish the job and will destroy the planet. Elfnein told the girls that their seven songs can overcome the will of god (just like it did to Shem-Ha). The others use their united Climax Song, allowing them to simultaneously destroy all the Yggdrasil cores around the world, shutting down Yggdrasil permanently. Before, the girls escape, their symphogears are starting to break down due to their Swan Songs and what's worse is that Shem-Ha (who manage gather all her fragments to her body) captures the girls in order to take them to hell with her. Hibiki and Miku confronts Shem-Ha in a spiritual plane. Shem-Ha angrily asks Miku why did she refuse to become one with her. Miku lectures Shem-Ha that if she were to be one with her, then they will never understand each other anyway and Miku will never destroy the feelings of love and care for others. Hibiki tells Shem-Ha that even if everyone gets hurt, they will make a history with a light even Gods did not know. Giving up her life, Shem-Ha uses every last of her remains to save the girls entrusting them that the future is in their hands (The stain of holding her fragments causes them to disappear without a trace along with her soul, but her soul and fragments is all she needs to save the welders from their doom). With Shem-Ha gone and the world finally restored to normal, Tsubasa and Genjiuro visits Yatsuhiro's grave and bids him a last farewell. Later at night, Hibiki and Miku finally tell each other their true feelings.
