As she starts convulsing hysterically, a nearby group of street musicians think she's dancing — and they conjure up, on the spot, the catchy rap tune "S.I.M.P./Squirrels in My Pants." Fifteen years later, "Squirrels in My Pants" experienced new life — on TikTok, of course. Suddenly everyone from Lizzo to MrBeast were doing their own version of "Squirrels in My Pants." Others were creating their own takes on additional "Phineas and Ferb" classic hits like "Busted" or "There's a Platypus Controlling Me." It was during the pandemic that "Phineas and Ferb" became the go-to comfort food for a Gen Z crowd that loved the show as kids and were rewatching it as teens or young adults on Disney+. And they stayed with it, often turning the show into memes. "I realized that, oh, this is where all the 'Phineas and Ferb' fans have gone," says co-creator Dan Povenmire, who has become a TikTok superstar (6.8 million followers and counting) thanks to his role as the voice of the show's not-so-competent evil villain Dr. Heinz Doofenshmirtz. Povenmire and co-creator Jeff "Swampy" Marsh (who voices Major Monogram) produced 126 episodes of "Phineas and Ferb" during its original run on Disney Channel and Disney XD, as well as multiple series and movies — not to mention a live touring show, junior novels, apparel, toys, video games and more. Their follow-up, "Milo Murphy's Law," wound up being set in the same universe (and even Doofenshmirtz ultimately showed up). After "Milo," Povenmire and Marsh had started to move on to their own projects, but Disney brass had other ideas. That lingering "Phineas and Ferb" social footprint — as well as its continued success in the consumer product space — led to talk of a revival. "They were like, 'What was the last big seller we had?'" Povenmire says. "And it was 'Phineas and Ferb.' And they were like, why did we stop doing that?" Adds Marsh: "Nobody could answer that question effectively." Povenmire jokes that if Disney doesn't do it, then bootlegs sell. "Look all over social media, there's all sorts of people in this platypus onesie that's obviously Perry the Platypus," he says. "They may just be leaving money on the table by not doing more of the show." Ayo Davis, the president of Disney Branded Television, led the charge to get the band back together. "Phineas and Ferb is truly one of a kind — smart, musical, and completely original," she says. "It's the kind of show that sticks with you, whether you're a kid watching for the first time or a parent singing along." Davis also had some hard data to back up her desire to bring "Phineas and Ferb" back. According to Disney internal streaming data, the show has been streamed 650 million hours on Disney+ globally to date. Plus, a new "streams" channel on Disney+, which plays nothing but back-to-back episodes of "Phineas" on a loop, launched this month and is already showing major growth. And even though there hasn't been a new episode in a decade, in the first quarter of 2025 "Phineas & Ferb" is among the top ten most-watched animated kids series on streaming platforms among total viewers, according to Nielsen data. Nielsen also crunched a number for Disney looking at the franchise from its first sneak peek in 2007, and came up with a total 12.6 billion hours watched across linear and streaming over the franchise's lifetime. For Povenmire and Marsh, the most important thing was making sure Disney wanted the exact same "Phineas and Ferb." "The great joy for me was when they came back and said, 'we're not looking for you to reinvent this, or evolve it, just whatever you were doing, do more of those,'" Marsh says. "That was really appealing." Disney gave the revival a 40-episode order; the first two episodes air June 5 on Disney Channel and Disney XD, while the first full batch of 10 episodes will premiere on Disney+ starting June 6. Not much has changed — many of the writers are the same, and the show's voice actors have all returned. "We put together a writer's room that was a good blend of people who'd done the job before, who knew all the characters, with some young folks who are huge fans of the show," says Marsh — and that even includes one of their voice actors, Olivia Olson, who plays Vanessa. "In fact, we have one of the new writers who actually knows more about what was on which show when. We used to go to the wiki fan site. Now it's just easier to ask him." On the voice front, among those returning: Vincent Martella (who plays Phineas Flynn) and David Errigo Jr. (who took over as Ferb Fletcher in 2020 from original star Thomas Brodie-Sangster), the two namesakes of the series. Also back are Ashley Tisdale as Candace Flynn, Caroline Rhea as Linda Flynn-Fletcher, Dee Bradley Baker as Perry the Platypus and Alyson Stoner as Isabella Garcia-Shapiro. There are a few minor slight changes superfans might notice, starting with a twist on the theme song. "Phineas and Ferb" normally opens with the band Bowling for Soup singing, "there's 104 days of summer vacation!" — but for the first few episodes of the revival, it's been tweaked to say, "there's another 104 days of summer vacation." (Povenmire and Marsh say that's only for the first few episodes, before they revert to the original lyric.) One more update: Since it's a summer later, the kids have grown a bit. "We just added a stripe to Phineas' shirt, so he'd look a little taller, but we haven't actually made him any taller," Povenmire says. With the new episodes, Povenmire and Marsh say they were excited to explore more of the show's secondary characters, including Baljeet and Buford. There's still plenty of room for silliness too, like an episode where a large, inanimate object has what they promise is a "very meaningful storyline," including a song by Michael Buble. There's also more on how Stacy is the only character to know Perry the Platypus' true identity, while Carl gets more backstory. And yes, Meap (as voiced by John Stamos) will return in the long-awaited "Meap Me in St. Louis." Besides Buble and Stamos, guest stars lined up include "Ted Lasso" stars Brendan Hunt (playing "Dr. Shamal") and Cristo Fernández (playing himself), as well as Kelly Dempsey as "Receptionist," Alan Cumming as "The Haberdasher," Jonathan Banks as "Driving Instructor," Lake Bell as "Villevielle," Leslie Jones as "Alliance Commander," Anna Faris as "Samantha Sweetwater," Megan Rapinoe as herself, Meghan Trainor as "Vending Machine Prime," Rhys Darby as "Lomond" and Ruth Negga as "Lieutenant Zarna." And yes, more merch is also on the horizon: Povenmire is happy to report that "Phineas and Ferb" Funko Pops are coming. "We're trying to hit everything that we wanted to hit," Povenmire says. "I think that's what most people want, they just want it to feel like the show that they grew up on and get that kind of a nostalgia charge from it. We've been trying to do that." Phineas and Ferb are once again determined to have the best summer ever — and it all starts with two brand-new episodes of Disney Branded Television's Phineas and Ferb, debuting Thursday, June 5, on Disney Channel and Disney XD, streaming next day on Disney+. When the five-time Emmy® Award-winning animated series returns for Season 5, Phineas (voiced by Vincent Martella) and Ferb (voiced by David Errigo Jr.) will embark on exciting new adventures filled with unforgettable milestones. As they tackle another 104 days of summer, their sister Candace (voiced by Ashley Tisdale) will make it her mission to finally bust her inventive stepbrothers. Meanwhile, Phineas and Ferb's pet platypus, Perry (voiced by Dee Bradley Baker), continues to lead a double life as Agent P, whose sole goal is to prevent Dr. Doofenshmirtz (voiced by Dan Povenmire) from taking over the tristate area. Phineas and Ferb — the most successful animated series for Kids 6-11 and Tweens 9-14 in Disney Television Animation history — hails from co-creators and executive producers Povenmire and Jeff "Swampy" Marsh, who are back at the helm following the success of the Disney+ Original movie Phineas and Ferb The Movie: Candace Against the Universe in 2020. Since Phineas and Ferb debuted in 2008, the franchise has grown to include two television movies, a live touring show, and a theme park experience at Walt Disney World Resort — not to mention extensions across every consumer products category on a global scale. "I think its success has a lot to do with decisions we made early on. We wanted to make a kinder, gentler show than other programs we were watching at the time," Povenmire said. "None of our characters are motivated by meanness. We don't go for laughs at the expense of other characters. We took that out of our toolbox and said, 'Can we make something that is a celebration of positivity and see if we can still make that funny?'" It seems to have worked. "(L)R Dan Povenmire and Jeff "Swampy" Marsh Over the years — and thanks to Disney+, where Seasons 1-4 are streaming in their entirety — its popularity has only grown. "It's become a comfort watch for people," Povenmire said. So, it came as no surprise in 2023 that fans were thrilled by the news that Disney Branded Television had ordered two seasons of Phineas and Ferb, consisting of 40 episodes in total. "We've always loved these characters and wanted to go back to them," Povenmire said. "I did a post on social media after the announcement, and the response was overwhelming. People were cheering. People were crying. It made me excited, but also a little worried, because I realized, 'Oh! We've got to live up to these expectations.' But when I saw the first episode [of Season 5] in color, and I saw the musical number, I knew we had lived up to their expectations. People who loved the original show are going to absolutely adore this." Martella agreed, saying, "It picks up like nothing happened." "It has the same heart and soul fans know and love," he continued, "but we also explore characters in different ways that we hadn't before. That feels really new and really fresh." And Martella — who has been with the series since its first season — would know about that. "I have been voicing Phineas for almost 20 years, and I can't express just how much it means to me to still be playing this character," he shared. "I don't know that I will ever again get to work on something with this type of impact... I know it means so much to the fans." Dr. Doofenshmirtz is determined as ever to control the tristate area in "Phineas and Ferb." "We have a really great crew," Marsh said. "I like to think we've done a really good job of creating an environment where they feel encouraged to contribute to the storytelling. It takes the pressure off us, especially because we have a couple of new writers in the room — guys who grew up with the show. It's led to more ideas than we know what to do with." And, according to Errigo, Season 5 of Phineas and Ferb features more running gags than ever before. "Pay attention," he teased. "Everything means something. It all pays off nicely." One of the reasons that Phineas and Ferb was primed for a return is that it had always been "a very open-ended, do anything kind of show," Povenmire explained. "The characters are super likeable, but they're also very different from each other. Phineas and Ferb try to do something fun every day, and that's really what Disney is all about — having fun every day." Phineas and Ferb will premiere Thursday, June 5, at 8 p.m. ET/PT on Disney Channel and Disney XD with two episodes, and the first episode will be available the same day on Disney Channel YouTube. The first 10 episodes will premiere Friday, June 6, on Disney+ in the U.S. and select international markets, with additional markets to follow later this year. The episodes will also be available to stream on Disney Channel on Demand. Isabella Garcia-Shapiro, Phineas Flynn, Buford Van Stomm, Agent P, Ferb Fletcher, Dr. Heinz Doofenshmirtz, Candace Flynn, and Baljeet Tjinder play musical instruments onstage in key art for Disney's Phineas and Ferb, premiering June 5 on Disney Channel and Disney XD. Phineas and Ferb, an animated comedy series, follows the adventures of Phineas Flynn and his English stepbrother, Ferb Fletcher, on their summer vacation. Each day, the boys and their friends take on some ambitious new project, sometimes to help someone in need, but often just to create something fun. This annoys the boys' sister, Candace, who constantly attempts to get them in trouble by revealing their actions to Mom. Meanwhile, across town, the wannabe-evil scientist Dr. Doofenshmirtz continually attempts to take over the Tri-State area with his various inator devices, and Perry the Platypus, the boys' pet and a secret agent, consistently foils his plans on behalf of the O.W.C.A and his commanding officer, Major Mongram. At the end of each episode, the two plots intersect to erase all traces of the boys' project just before Candace can successfully show it to Mom. After a 10-year hiatus, Disney+ is releasing Phineas and Ferb Season 5. The wildly popular cartoon debuted on Disney Channel in 2007 and quickly became one of the network's most successful animated franchises, scooping up a few Emmys and spawning several movies, spinoffs, and crossovers. Although the show initially ended in 2015, its long-lasting popularity led Disney to renew it for two additional seasons. As Season 5 drops on Disney+, viewers can use our guide to find out where to watch all the Phineas and Ferb shows and movies in release date order. Phineas and Ferb Seasons 1-3 (2007-2012) Phineas and Ferb is the show that started the whole franchise. It follows stepbrothers Phineas (Vincent Martella) and Ferb (Thomas Brodie-Sangster), who decide to make the most of summer by finding something new to do every day. Given the boys' inventive nature, their outlandish ideas include building roller coasters or beaches in their backyard, much to the chagrin of their older sister, Candace (Ashley Tisdale). Imaginative, quirky, and funny with iconic characters and great music, Phineas and Ferb's first three seasons quickly established the show as a hit. Season 3 is a fun collection of mostly standalone adventures, but as the show's popularity grew, it led to more significant and fun projects for the franchise. Take Two with Phineas and Ferb (2010) Take Two with Phineas and Ferb is a short-form Phineas and Ferb spinoff and talk show. The show can be watched anytime, since it's not directly tied into the main series. The shorts see Phineas and Ferb interview a variety of celebrities, such as Jack Black, Neil Patrick Harris, and Ben Stiller. Take Two with Phineas and Ferb is reminiscent of Cartoon Network's Space Ghost Coast to Coast and is a unique blend of animation and live-action. It's a fun, short series for viewers looking for a little more Phineas and Ferb. Phineas and Ferb the Movie: Across the 2nd Dimension (2011) Phineas and Ferb the Movie: Across the 2nd Dimension, premiered in 2011. For three seasons of Phineas and Ferb, viewers watched their pet platypus, Perry (Dee Bradley Baker), lead a double life as a secret agent. In the film, the boys finally discover Perry's secret and get caught up in another dimension ruled by an alternate Dr. Doofenshmirtz (Dan Povenmire). Phineas and Ferb the Movie: Across the 2nd Dimension is one of the best Disney Channel original movies, filled with the usual intrigue of the show but with a bigger story, flashier visuals, better action, and a little more depth. It marked the franchise's first foray into newer, bigger territory. Phineas and Ferb Season 4 and Crossovers (2013-2015) Hiding on the wave of its movie success, Phineas and Ferb delved into Season 4 with vigor. Boasting more innovative animation, deeper storylines for side characters, and a plethora of exciting specials and crossovers, Season 4 stands out as one of the best. Within the season, viewers will find two crossovers. Episode 22, "Phineas and Ferb: Mission Marvel," is a crossover with Marvel, which sees the boys help Marvel superheroes who lost their powers from one of Dr. Doofenshmirtz's inventions. In Episode 41, "Phineas and Ferb: Star Wars," viewers get a Star Wars crossover, where Phineas and Ferb reside in an alternate Star Wars universe. Milo Murphy's Law (2016) Shortly after Phineas and Ferb's conclusion, its creators, Dan Povenmire and Jeff "Swampy" Marsh, dropped Milo Murphy's Law, a spinoff series set in the same universe as Phineas and Ferb. The series centers on Milo Murphy ("Weird Al" Yankovic), a descendant of the creator of Murphy's Law, who finds unique ways to get around the likelihood that anything that can go wrong around him will go wrong. Milo Murphy's Law is a fun expansion of the Danville universe, featuring a Phineas and Ferb crossover. Although it's not necessary viewing to enjoy Phineas and Ferb, it's a hilarious spinoff that stands well on its own. Phineas and Ferb the Movie: Candace Against the Universe (2020) Phineas and Ferb the Movie: Candace Against the Universe premiered in 2020 and is set just before the Season 4 finale. In the film, aliens abduct Candace, who actually begins to feel special on their planet of Feebla-Oot while dealing with her growing frustration with her brothers. Phineas and Ferb the Movie: Candace Against the Universe was a welcome return to the franchise five years after the show's end. It gave Candace her due spotlight and ramped up the sci-fi elements and action, although some viewers understandably missed the show's traditional formula after a five-year hiatus. Phineas and Ferb Season 5 (2025) Phineas and Ferb Season 5 premieres on Disney+ on June 5. The season will follow Phineas (Vincent Martella) and Ferb (David Errigo Jr.) on yet another summer vacation as they find inventive ways to beat summer boredom and unintentionally evade getting caught by Candace and their parents. Almost the entire original cast is back, with the exception of Brodie-Sangster, who was replaced with Errigo after Phineas and Ferb Season 4. Season 5 will feature all-new adventures, inventions, songs, and an impressive slate of guest stars. It's positioned to be quite an epic return to the beloved series. Where To Watch 'Phineas and Ferb' Movies And Ferb - Season 5 Trailer Comprised of 52,637,000 sq. acres, or 82245 mi² of unbridled consumerism, the Superduper Mega Superstore is the largest supplier of everything in the Tri-State Area. It's stationed in a large, mall-like structure that has enough space to fit the state of Kansas under one roof. It based its first on-screen appearance in "Vanessassary Roughness" when Phineas, Ferb, Candace, Stacy, Perry, Buford, Baljeet and Vanessa became involved in an endeavor to acquire a rare but commercially available chemical called Pizzazium Infinionite. Aside from the contended chemical, the mall's other known products include Potato Salad Ingredients and Swiss Army Knives.
