Test Bakery Visit This article offers a comprehensive examine of "Cookie and Cracker Manufacturing, SOP Manual". Cookie and cracker are served as a break time snacks, but both has different taste and structure. Cookie is a small, flat, baked good snack, which is either crisp or soft. While, cracker is a dry, thin, crispy baked bread, which is usually in salty or savoury. Cookie and cracker are classified into different types based on the ingredients added in it. China, India and United states are the worlds largest producers of cookie and cracker, they export their product all over the world. More than 375 industries in United states manufactures cookie and crackers, and they generate annual revenue of about \$11 billion. Addition of new flavours and healthy ingredients, drives the industry to attain significance growth in the market. Due to continuous increase of global population, the demand for the product in the market is keep on growing. Globally, this industry is expected and projected to rise the revenue of \$135 billion by the year 2023. SOP ToolBox: If you are reading these lines, I am sure you are looking for Standard Operating Procedure guidelines or SOPs itself. In both the cases, searching in internet will not be yielding any great help. Because no company shares their SOP Development Process and certainly don't share their SOP Documents. The best way to develop an SOP is creating one for yourself. At Physics, we write SOPs day-in and day-out for companies across the globe including some of the Fortune 500 organisations. Our charge ranges from USD 5000 to USD 50000 depending upon the number of processes to be covered. Certainly, this is not affordable to small and mid-size organisations. Hence, we decided to create this SOP ToolBox to disseminate our 8-Step SOP Development Life-Cycle and best practices at an unbelievably low price.I always say, writing an SOP is somewhere between art and science. So far you may be clueless on where to start and how to progress on an SOP? This will not be the case after you diligently go through this SOP ToolBox. We have summarised all our secrets here to get you started and to deliver a stunning SOP to your management. 1. Standard Operating Procedures (SOP) Manual for Accounts Department2. In past few years, cookies and crackers are produced with safe ingredients and low sugar & low-calorie, this addition attracts more customer and creates huge demand for the product in the market. Ingredients are mixed with each other and they cooked to form a creamy substance. These substances, are allowed in a machine through conveyor and then the machine squeeze the creamy substance in a defined shape. Now, the creamy substance is undergone in the oven for baking. Both the cookie and cracker have similar manufacturing process, but ingredients and baking method are differed from each other. Finally, the baked cookie will be undergone for inspection to check the quality and then, the cookies and crackers will be efficiently packed for distribution and sales.
