Name: Pokemon Glazed Type: GBA Hack by: Smerald Language: English Creator: redriders180 Length: Completed Today is the day when you turn twelve years, which means that today is the day when you get the first Pokemon. But if you expected an inevitable journey to the Tunod region, you'd be dead badly. A mysterious power is sending the world Pokemon and the real world into a collision course. A mysterious team wanders around the ruins of the ancient Tunod, with a mysterious purpose. You will meet allies in three roaming trainers of the Johto region, as well as a Pikachu infernal-bent scarf on revenge. Can you handle it? Choose from 5 starters Three regions- Tunod, Johto and Rankor Sogno Pokemon from Sinnoh, Unova and Kalos Rematch Trainer, as well as all gym leaders All legends from Kanto to Sinnoh plus eight from Unova New effects out of combat Physical/Special retreats Split180, JPAN, Knizz, ChaosRush, WesleyF Look at the complete list here. Pokemon Glazed's story starts when you're just 12, which means you can now have your Pokemon to train to become your partner in your expedition. Your journey as a coach of Pokemon begins in the Tunod region; At the moment, the world is facing a serious disaster. A mysterious power is currently sending the world Pokemonreal world on a collision course. You'll find out strange teams that bring a mysterious purpose. Meet friends and allies, work as a team to bring the world back to its peaceful state. Meet your legendary favorite Pokemon and some new Pokemon from the other series of games Pokemon and play Pokemon Emerald with new skills, objects with perfectly designed buildings, maps and the environment. Everyone could agree that Pokemon has cleared an excellent game, was released in November 2012 and updated in November 2015. Redriders180 created Pokemon Glazed which contains fantastic features and rich in changes that make the game even more fun than the original game Pokemon Emerald. Update A piece of exciting news in the world of Pokemon rom hacking and every Pokemon Glazed fans had just arrived. The popular Pokemon Glazed is now updated and improved. Hopefully, we can expect more of these improvements in the coming days. The game took another leap after years of idleness. A guy named TrainerX493 of Pokecommunity decided to improve the Pokemon Glazed. Tens of corrections and improvements have been made that will surely make you choose to play Pokemon Glazed once again. Another exciting news is that 7b saves are compatible with 8.5.1. This means that if you have played the previous version of Glazed 7b, continue to play it in the latest version of Glazed. Fissaggio Attico chiave Glitch Use cheating code 82005274 015F to solve glitch. The cheat will replace the first element inpokemart with Penthouse Key. Pokemon GlazedAuthor: Redriders180Hotfix: TrainerX493 Gamebase: Pokemon Emerald Language: EnglishSource: Link Cheats: Click here Features: (General Summary of 7b Changes) Pokémon animations are no longer disabled and work for all Pokémon. (MrDollSteak Sprite Resource) Editing EV levels and slightly, the areas of the first four Gyms are easier, Post 8 ° Gym is a little harder, and Post 16 ° Gym is a little more difficult (Smather difficulty overall curve), Pokémon statistics, learnset moves (mostly TM and Tutors, however,) move power, elements and more are updated to match Gen7 from Gen6. Steel can't resist Dark and Ghost anymore. The opposing trainers now correctly recognize Type fairy. Icons for physical/special movements/status (physical/special divisions already existed), Mega Pokémon now can actually learn moves, and can change again using the Mega Stone again (Always act as normal evolution though). Cameron's Dojo is now less than a grind and will not exceed your team's level by using it. Pikachu scarf is much stronger (but still reasonable, enough not to be terrible). Most of the gift and Pokémon trade now keep items, and many wild Pokémon have now kept items included in the next games. EV closed at 252. The stains now show the color according to nature. Mew/Arceus (aka Deoxys) from outside the event now obeys. default options when you start a new game will have the text speed set for "Fast", sound setting set to "Stereo", and PC boxesnow use all 12 wallpaper when you start a new rescue instead of repeating the first 4. The maps had 99% of fixed errors, so there are no more invisible walls or tables that you can walk. Mega Stone X now has an icon. A lot of Pokédex stuff. A lot of Bug fixes. Overall a lot of quality improvements. Choose between five starters instead of three!
